DATE: February 12th, 2015

Notice of Temporary Traffic Control Plan
ComEd C479 Mainline Cable Replacement
March 12th, 2015 to March 18th, 2015

Location of Affected Areas:
On Grove St Between Maple Ave and Elmwood Ave, Also on Maple Ave between Davis St and Grove St.

Description of Work:
ComEd is making system improvements in order to provide more reliable service to their customers. During this project, ComEd crews will be replacing the mainline cable between three underground manholes located along Grove St between Maple Ave and Elmwood Ave. ComEd crews will also be replacing mainline cable in one underground manhole located along Maple Ave between Davis St and Grove St.

ComEd crews will be working Monday – Friday from 8:30 A.M. to 5 P.M. In order to create a safe work zone, parking will be prohibited and modified traffic patterns will be established by the three access manholes while the ComEd crews are working. Normal parking and traffic patterns will be permitted when the crews are not present.

Please take extreme caution, due to several workers and equipment being used. There will be signage in the area to assist vehicles and pedestrians, during working hours. Please stay alert and thank you for your patience!

If you have any issues please call 1-800-334-7661 and reference the ComEd Grove St. job in Evanston, Ken Neuendank Foreman.

Please note that this work does not require any power outages.
