

Health Department 2100 Ridge Avenue Evanston, Illinois 60201

Telephone 847/866-2948 Fax 847/448-8134

**PLEASE NOTE**

A Certificate of Appropriateness is required for any window replacement or tuckpointing in a single-family home or structure that is a landmark or is in a historic district.

**WINDOW REPLACEMENT and/or TUCKPOINTING MASONRY AFFIDAVIT DATE OF AFFIDAVIT \_\_\_\_\_.**

To help reduce lead risks, this affidavit must be completed and signed by the building owner before a building permit, if required, will be issued for window replacement and/or tuckpointing of a painted masonry building.

**Building Address(es)** \_\_\_\_\_, **Evanston, IL 6020**\_\_\_\_\_

IMPORTANT: All tenants in the above-listed building(s) are to be given a copy of the legally-required pamphlet "Protect Your Family From Lead In Your Home" before the work begins, even if it was given to them before. This pamphlet is available at [www.epa.gov/lead/pubs/leadpdf.pdf](http://www.epa.gov/lead/pubs/leadpdf.pdf). It is EPA747-K-99-001 June 2003.

**YES, I have given all tenants a copy of "Protect Your Family From Lead In Your Home."**

**YES**  **NO** **The buildings at the address(es) above were built after 1978.**

**If YES**, skip to the signature line at the bottom. Take the signed affidavit to the Health Department, Environmental Health Division for their signature and then take the affidavit to the Building & Inspection Services Division.

**If NO**, check every item below that is true.

There are no lead hazards at the above address(es) and I have attached a written explanation of why I make this statement and I have received a copy of the EPA's "**Steps to Lead Renovation and Repair**" available at <http://www.epa.gov/lead/pubs/renovaterightbrochure.pdf>.

I am unaware of any lead hazards at the above address(es) and I am providing the contractor name and have attached a copy the contractor's EPA Renovation Repair Paint (RRP) training or Illinois Lead Contractor License Number and I have received a copy of the EPA's "**Steps to Lead Renovation and Repair**" available at <http://www.epa.gov/lead/pubs/renovaterightbrochure.pdf>.

IMPORTANT: You can choose to have the building components tested for lead. If any hazards are found, you must use an Illinois Lead Contractor. If you choose to not have the components tested, you must use lead-safe methods when remodeling.

There are known lead hazards at the above address(es) and I am providing the name and license number of the Illinois Lead Contractor and I will provide clearance testing results to the City of Evanston from an independent environmental lab upon completion of the job per State of Illinois Childhood Lead Poisoning Prevention regulations.
