

Cook County Animal & Rabies Ordinance Verification Form

Cook County Ordinance requires that operators of a dog park/beach verify that all dogs are current in a series of vaccinations/tests and are licensed by the municipality where their owner resides. Failure to comply could lead to the facility being closed. The City of Evanston **CAN NOT** waive any of these requirements, **only Cook County can issue a waiver**. If you would like to inquire about a waiver, please contact Cook County at 708-974-6140. If they issue you a waiver, please attach that waiver to your Dog Beach Pass application. You must get the waiver before Evanston can issue a Dog Beach Pass.

Section 1: Vaccinations & Tests Verification

Verification of the required vaccinations and tests can be confusing and time consuming. They are sometimes listed separately and sometimes as part of a panel of vaccinations. The fact that different veterinarians/animal hospitals have different names for these panels also adds to the confusion. To make the verification process faster for **you**, the Evanston Recreation Division has developed this Veterinarian Health Report. **This is the only report we will accept to verify vaccinations and tests.** Please have your dog's Veterinary staff fill out and sign this health report.

Required Vaccination/Test	Dog #1	Dog #2	Dog #3
	Name _____ Expiration Date _____	Name _____ Expiration Date _____	Name _____ Expiration Date _____
Rabies			
Distemper			
Hepatitis			
Parainfluenza
