**April 29, 2008 REVISED**

## **CITY OF EVANSTON RIDGE AVENUE ROADWAY IMPROVEMENT HOWARD STREET TO CLARK STREET**

### **PROJECT DESCRIPTION**

This notice is to inform the residents, businesses and property owners on or near the Ridge Avenue / Main Street intersection that a temporary detour (**See back of page**) will be in effect from 7:00 AM on Wednesday May 7th to 7:00 AM on Saturday May 10th for a 72 hour period. This part of the project requires the concrete pavement base to be replaced in several areas throughout the intersection. The new concrete patches will require a curing period before traffic is permitted back on the pavement. The Ridge Avenue single Northbound lane traffic will not be affected; however, the Eastbound and Westbound Main Street traffic will be detoured. The intersection will then be reopened to Eastbound and Westbound traffic after 7:00 AM on Saturday May 10th and the detour removed.

### **CONTRACTOR**

This project is being constructed by **Benchmark Construction Co. Inc.**, located at **2260 Southwind Boulevard, Bartlett, IL 60103**. Tim Hixon of Benchmark Construction Co. Inc. is the Project Superintendent.

### **CITY SUPERVISION**

The Resident Engineer on site for this project is John Harchut of **CivilTech Engineering, Inc.** of Itasca, IL. CivilTech has been retained by the City of Evanston to provide construction engineering services and they are directly responsible for all aspects of the construction. If you have a question or concern, please call **John Harchut at (630) 675-1987** as a first source of contact and the City of Evanston's **Division of Transportation at (847) 866-2924** as a second source.

Thank you in advance for your understanding and cooperation.

**Public Works Department  
Division of Transportation**
