RE: City of Evanston Electric Aggregation Program
ComEd Service Address:

INFORMATIONAL CONTENT ONLY: ACCOUNT RETURNS TO COMED

Dear Resident or Small Business Owner:

The City of Evanston is continuing our Electric Aggregation program. Following the passage of a voter referendum in 2012, which authorized the City to adopt electric aggregation programs, the City has procured electric supply in bulk for residents and small businesses. Chicago-based MC Squared Energy Services, LLC (mc²), was recently selected in a competitive bid process to serve the City with electric supply through December 2023 including a Civic Contribution of \$500,000 annually to the City that will be used to purchase Renewable Energy Certificates (RECs) and support the implementation of the Climate Action and Resilience Plan at no additional cost to the residents or the City. mc² will provide eligible residents and small businesses with an electric supply price equal to the ComEd monthly publishing tariff supply rate during the 30-month term beginning with the June 2021 ComEd meter read cycle.

Your account will be returned to ComEd. We realize that you were part of the recent electric aggregation program; however, under this new program, your electric supply service will be returned to ComEd's tariff electricity supply service. See sample ComEd letter on reverse side that you will receive in a few weeks. One of the benefits of the program is that you do not need to receive electric supply from mc² to be counted in the City's Electric Aggregation program.

If you wish to be served by mc² as your electric provider within the City's Electric Aggregation program, you must take action to enroll. Visit www.mc2energyservices.com/special (enter promo code **Evanston**) or call 855-697-0285, Monday through Friday, 8 am to 5 pm. If you wish to enroll, you will never pay more than the ComEd rate. There are no enrollment or early termination fees. For a complete list of your options, visit www.pluginillinois.org. You may also request a list of all supply options available in a format allowing comparison of price and product from the Illinois Power Agency free of charge at www.illinois.gov/ipa/Pages/Feedback_Form.aspx.

For more information, email Evanston@mc2energyservices.com or call 855-697-0285, Monday through Friday, 8 am to 5 pm. Please beware of potential scams: any solicitor who visits or calls, requesting your permission to switch to an electricity supplier, is not associated with the City, mc² or ComEd. MC Squared Energy Services, LLC is the only vendor endorsed by the City; no other supplier has been endorsed by the City.

Sincerely,

City of Evanston

Confirmation of Change in Electric Supplier

Dear Customer:

We are writing to confirm your request to have ComEd supply your electric service going forward. As a result, you will no longer receive electric supply service [effective date], from Homefield Energy.

If you would like to choose an electric supplier other than ComEd, please visit ComEd.com/CustomerChoice for a list of eligible Retail Electric Suppliers that are able to serve you in our service area. Be mindful that you will not be able to return to Homefield for the next 6 billing periods.

We will continue to safely and reliably deliver energy to your home or business as well as restore your service if a power outage occurs.

Should you have any questions about your account, please visit us at ComEd.com, or mobile app, or contact us Monday – Friday 7am – 7pm at 1-800-334-7661 if you are a residential customer or 1-877-426-6331 if you are a business customer.

We support your choice to select a retail electric supplier. To learn more about customer choice, you can visit ComEd.com/CustomerChoice or PlugIllinois.org.

Thank you for being a valued ComEd customer.

Sincerely

Our ComEd Customer Operations Team
