Callan Avenue Improvements

May 22, 2026

Description

Over the next four weeks, parkway improvements will take place on Callan Avenue between Howard Street and the alley. This project includes the removal of two trees, installation of underground soil cells, planting of two new trees, installation of permeable pavers, and installation of removable bollards in the street.

Schedule

Construction is currently underway and is expected to last up to four weeks. Parking restrictions will be implemented in the area as necessary to accommodate construction activities. Street sweeping parking restrictions will be waived within a one-block radius of the construction zone when temporary no parking restrictions are in effect. Every effort will be made to complete the work in a timely manner to minimize inconveniences caused by the construction.

Contractor

The contractor for this project is Alliance Contractors, Inc. (1166 Lake Avenue, Woodstock, IL 60089).

City Contact

This project will be monitored by the City's Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer, Brooke Tucker, at (708) 435-3866. Questions about the project in general should be directed to Bridget Nash, Senior Project Manager, at (847) 448-8102 or bnash@cityofevanston.org.
