## Central and Thelin Water Main Improvements

*April 13, 2026*

### Project Description

Over the next four months, water main improvements will be taking place at the following locations listed below and shown on the attached map:

- Central Street from Broadway Avenue to Bryant Avenue
- Thelin Court from Dewey Avenue to Cul-de-Sac

This work involves replacement of deteriorated water mains, water service line replacement, minor sewer improvements, concrete curb and sidewalk repairs, as needed, trench patching, street restoration, and parkway restoration. This project will also include the replacement of lead service lines into the homes of participating property owners that have signed a right-of-entry form. If a property owner has declined to participate, the water service line will be replaced up to the parkway and a waiver will be requested.

### Project Schedule

The project is anticipated to begin the week of April 13 and be completed by late July. Work at each location is expected to last approximately eight to ten weeks. The exact dates of construction activities scheduled to begin will be noted on the construction zone “No Parking” signs posted a minimum of 48 hours in advance of the work. Parking will be prohibited while construction takes place. Street sweeping parking restrictions will be waived for a one block radius around the

construction zone when no parking is in effect. Every effort will be made to complete the work in a timely manner to minimize any inconveniences caused by the construction.

Property owners who have a signed right-of-entry form will be contacted by a representative of the contractor to schedule the lead service line replacement to the home once work commences on the block.

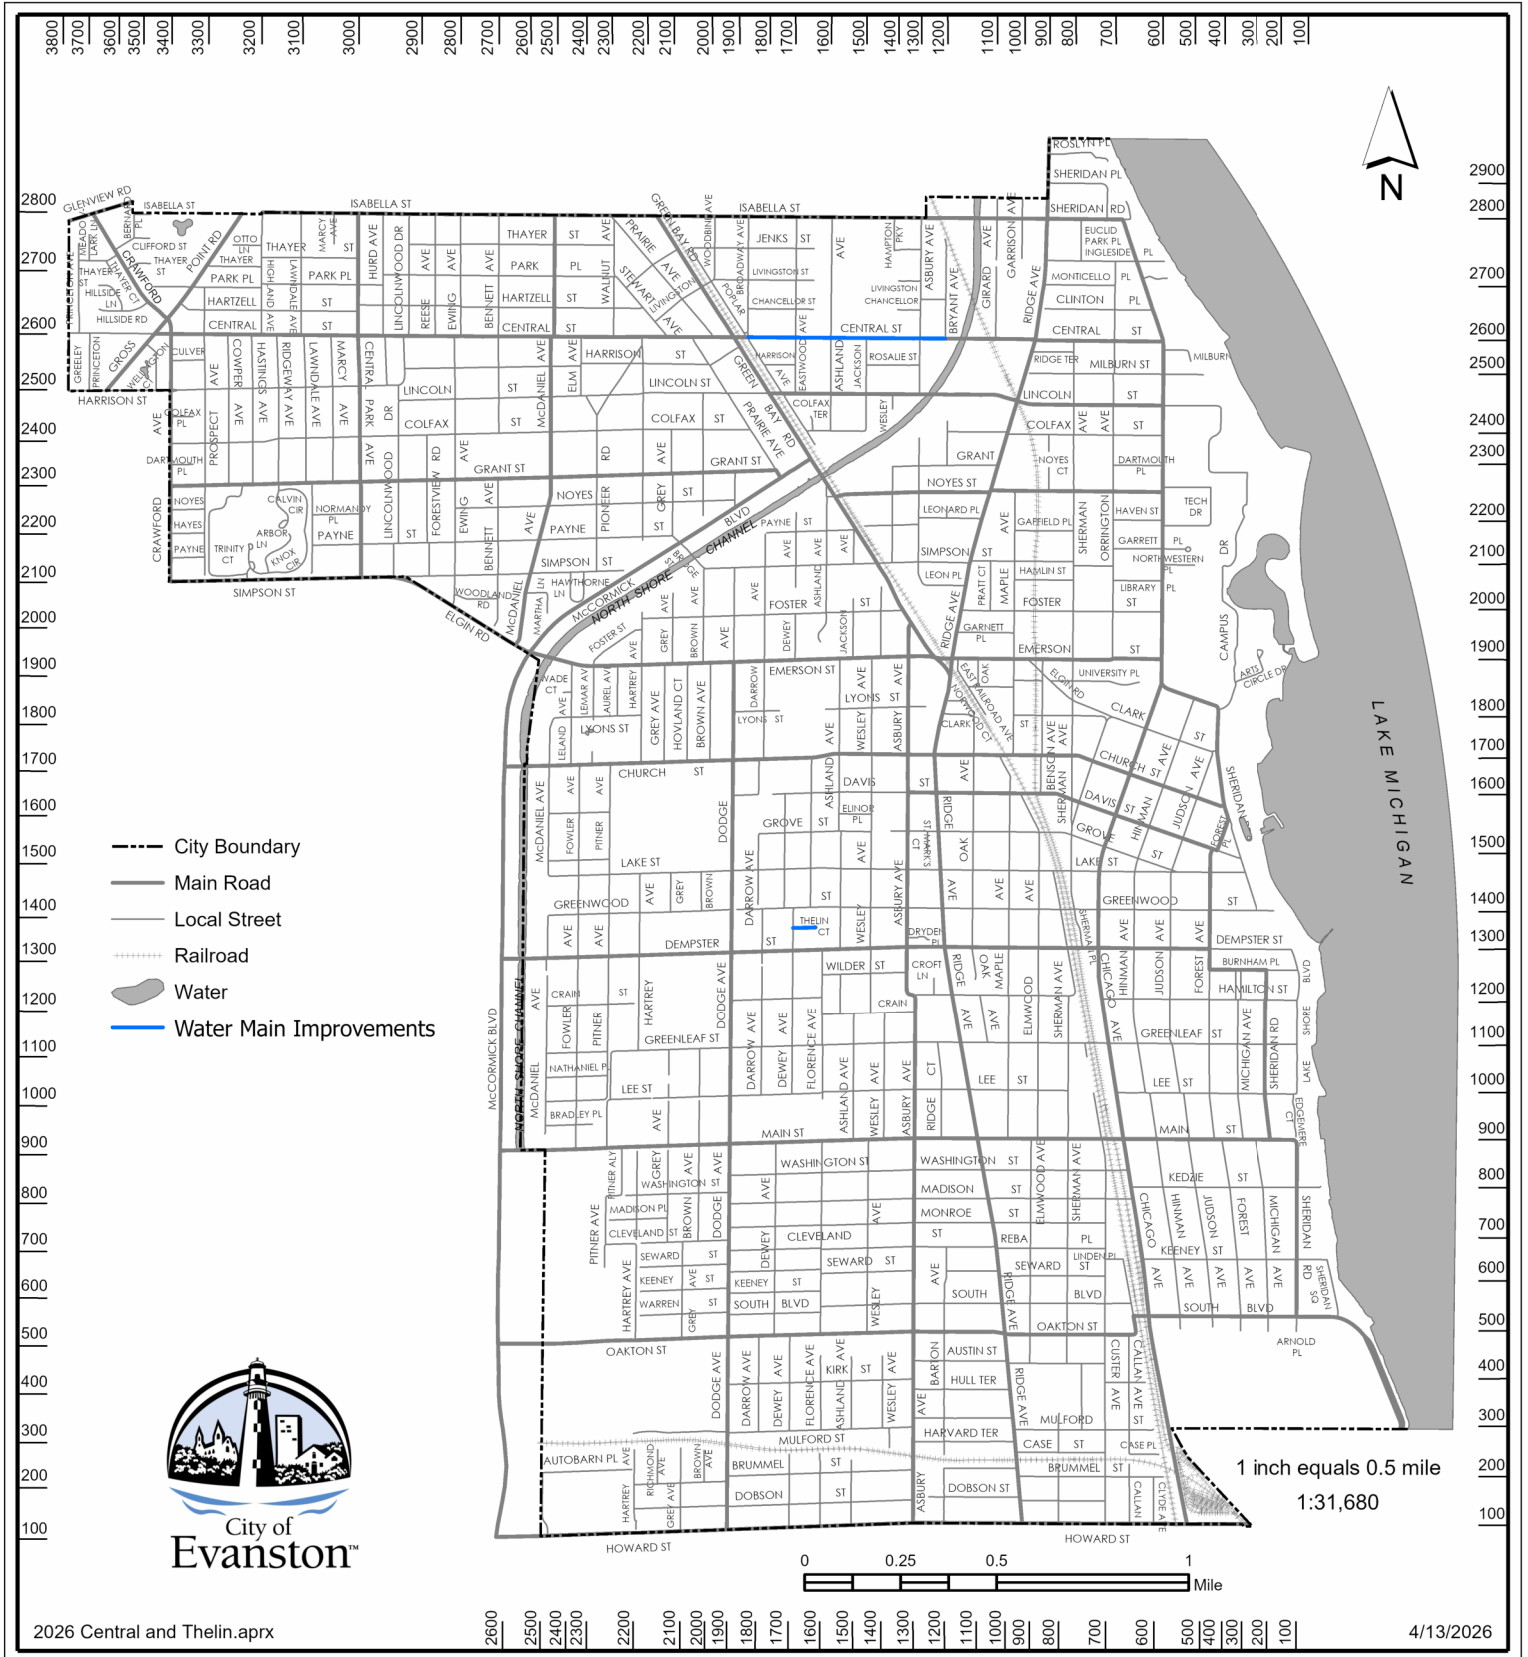

## **Contractor**

The contractor for this project is Joel Kennedy Constructing Corp. (40 Noll Street, Waukegan, IL 60085).

## **City Contact**

This project will be monitored by the City's Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer, Angeleo Alonzo, at (224) 723-7487. Questions about the project in general should be directed to Bridget Nash, Senior Project Manager, at (847) 448-8102 or [bnash@cityofevanston.org](mailto:bnash@cityofevanston.org).
