Fire Station 3 Roof Restoration

September 1, 2026

Project Description

The City of Evanston is excited to announce the upcoming restoration of the roof at Fire Station 3. This project is anticipated to begin in early fall 2026 and be completed in early fall 2026. The restoration will utilize a LiquiTec fluid-applied, fully reinforced single-ply roofing system and will provide a 20-year warranty, furthering the City's commitment to responsible stewardship of public assets.

Project Schedule

During the installation, crews will work to minimize disturbance to Fire Station 3 and its operations as much as possible. Construction activities and material storage will be coordinated with the Fire Department to maintain the station's operations throughout the project. The City appreciates the community's patience and cooperation as we implement this important project.

Contractor

The project's general contractor is Garland/DBS, 3800 East 91st St., Cleveland, OH.

Project Monitoring

The project is monitored by the City's Capital Planning & Engineering Bureau. If you have questions or concerns during construction, please contact Tim Kirkby, Project Manager, at **3-1-1** or **847-448-4311**.
