Leahy Park Fieldhouse Renovation

August 12, 2026

Project Description

The City of Evanston is excited to announce the upcoming renovation of the Leahy Park Fieldhouse. The project will improve accessibility within the building by addressing deficiencies identified in the City's 2022 ADA Transition Plan, with a particular focus on renovations to the existing restrooms.

The project will also include a variety of improvements and maintenance work throughout the facility, including painting, replacement of electrical fixtures, and minor repairs. Together, these improvements will provide a more accessible, attractive, and functional facility while helping to extend the useful life of the building.

Project Schedule

Construction is anticipated to begin in late August and continue through November 2026. During construction, the restrooms within the Leahy Park Fieldhouse will be closed to the public. Portable toilets will be provided for park users throughout the duration of the project. The surrounding park will remain open and available for public use. The City appreciates the community's patience and cooperation while these improvements are completed.

Contractor

The project's general contractor is LZ Design Build Group, 1350 Lake St., Suite K, Roselle, IL.

Project Monitoring

The project is monitored by the City's Capital Planning & Engineering Bureau. If you have questions or concerns during construction, please contact Tim Kirkby, Project Manager, at **3-1-1** or **847-448-4311**.
