Evanston Shoreline Repairs

Public Meeting #3, Tuesday, August 29, 2023

Description

The City of Evanston will host a third Public Meeting from 6:00 P.M. to 8:00 P.M. on Tuesday, August 29, 2023 in the Robert Crown Community Center's Multipurpose Room B/C located at 1801 Main Street to gather input regarding potential improvements to Evanston's lakefront parks and shoreline. This project is being proposed as a result of recent high lake levels and the resulting damage and emergency measures put in place to protect the lakefront parks.

Please join us to see how input from prior public meetings and surveys has been incorporated into the project planning, and to share your thoughts about refined shoreline protection concepts with City of Evanston staff and coastal engineering / landscape architecture consultants from SmithGroup!

For additional information and updates, please visit the project's website [Evanston Shoreline Repairs](#).
