Evanston Shoreline Repairs

Community Open House, Tuesday, October 25, 2022

Description

The City of Evanston will host a Community Open House from 6:00 P.M. to 8:00 P.M. on Tuesday, October 25, 2022 in the Evanston Public Library's Community Room located at 1703 Orrington Avenue to gather input regarding potential improvements to Evanston's lakefront parks and shoreline. This project is being proposed as a result of recent high lake levels and the resulting damage and emergency measures put in place to protect the lakefront parks.

Please join us and share your concerns and ideas about our lakefront parks and shoreline protection strategies with City of Evanston staff and coastal engineering consultants from SmithGroup!

For additional information and updates, please visit the project's website [Evanston Shoreline Repairs](#).
