Evanston Shoreline Repairs

Community Open House, Wednesday, March 8, 2023

Description

The City of Evanston will host a second Community Open House from 7:00 P.M. to 9:00 P.M. on Wednesday, March 8, 2023 in the Robert Crown Community Center's Multipurpose Room B/C located at 1801 Main Street to gather input regarding potential improvements to Evanston's lakefront parks and shoreline. This project is being proposed as a result of recent high lake levels and the resulting damage and emergency measures put in place to protect the lakefront parks.

Please join us and share your thoughts about initial shoreline protection concepts with City of Evanston staff and coastal engineering consultants from SmithGroup!

For additional information and updates, please visit the project's website [Evanston Shoreline Repairs](#).
