CURRENT RESIDENT
422 GREENWOOD STREET
EVANSTON, IL 60201

Dear Property Owner:

The purpose of this letter is to advise you of the street improvement projects scheduled for the 2025 construction season. A project list is included in the table on the back of this letter. The cost of the work will be funded by the Motor Fuel Tax Funds and there will be no direct charge to the property owners on these streets.

This early notice is being provided so that property owners that are scheduling improvements can complete their work prior to the construction project. If you are planning work that will require excavation in the street or parkway, such as curb cuts for driveway, sewer repairs, or increasing the size of your water service, it is most important to complete the work before the street is resurfaced.

The street resurfacing project will start in early July and is expected to be completed by early October 2025. A newsletter will be sent to the property owners at the beginning of the project that will include the contractor's proposed schedule.

The majority of the construction will occur within the street pavement. However it will be necessary to excavate in the parkways to replace curb, driveway and courtesy walk as needed.

If you have any questions regarding the proposed work, please contact me at 3-1-1 or 847-448-4311.

Sincerely,

Sat Nagar, P.E., Senior Project Manager

C: Lara N. Biggs, P.E., Bureau Chief, Capital planning & Engineering
