Re: Solid waste rate adjustment

Dear Edgar,

This letter is in regard to the City of Evanston's commercial solid waste and recycling contract with Lakeshore Recycling Systems (LRS) – specifically as it relates to annual service rate adjustments.

Consistent with this contract, and subsequent meetings, LRS' service rate will mature on November 1, 2024. City businesses and commercial properties will see an increase of 2.6% for waste and recycling services.

This service rate increase was based on the difference of CPI between August, 2023 and August, 2024 from the CPI-U for the Midwest Region.

If you feel this rate this rate is in error, please let me know at your soonest.

On behalf of Lakeshore Recycling Systems, I am grateful for the opportunity to continue servicing the City of Evanston, and its residents.

If I can be of any more assistance, please don't hesitate to reach out.

All the Best,

A handwritten signature in black ink, appearing to read "Bill Kenney", is written over a horizontal line.
