2025 Alley and Sidewalk Improvements

September 16, 2025

Alley North of Lincoln Street and East of Hartrey Avenue

Description

As part of the 2025 Alley and Sidewalk Improvements Project, sewer and paving work in the alley North of Lincoln Street and East of Hartrey Avenue is scheduled to begin within the next two weeks and is expected to be completed within approximately four to six weeks, weather permitting. The work includes the installation of storm sewers, construction of 8-inch-thick concrete alley pavement, and garage apron restoration as needed.

A notice will be posted at each alley entrance in advance of construction with the exact start date. The alley will be closed to traffic during construction. We kindly ask that all vehicles be removed from garages and parking areas before the closure begins. Please note that there will be periods of inactivity to allow the newly placed concrete to cure and gain sufficient strength before the alley is reopened.

While the alley is closed, refuse and recycling collection will take place at the curb in front of your property. In addition, street sweeping parking restrictions will be waived within a one-block radius of the affected alley to accommodate increased demand for on-street parking during construction.

Contractor

The contractor for this project is Alliance Contractors, Inc. (1166 Lake Avenue, Woodstock, IL 60089).

City Contact

This project will be monitored by the City's Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer, Brooke Tucker, at (708) 435-3866. Questions about the project in general should be directed to Bridget Nash, Senior Project Manager, at (847) 448-8102 or bnash@cityofevanston.org.
