The contractor is remobilizing and has started some preliminary work. The remaining scope of construction work will begin next week. The contractor is removing the temporary traffic signal posts from the intersections and concrete restoration at these sites will follow shortly thereafter. Tree plantings on the west side of Green Bay Road and bio swale soil preparation of the east side is scheduled to start next week. The landscaping and planting work should be complete by early May depending on weather. The major construction activities that will be occurring over the next six weeks include:

- Street light foundation removals
- Sidewalk removal and replacement
- Planting soil mix preparation & bio swale planting
- Tree planting & sodding
- Lining of sewer structures
- Traffic counts at all the intersections
- Sign installations
- Punch list items

During construction, traffic control will be set up to maintain one lane of traffic in each direction on Emerson Street, Ridge Avenue, Asbury Avenue and Green Bay Road. The actual date when construction is planned will be noted on the temporary “NO PARKING” signs posted 48 hours prior to the start of the work. The construction activities will create some inconveniences for the abutting businesses and residents, but workers will attempt to minimize these issues. Street sweeping and/or neighborhood parking restrictions will be waived for a one-block radius around the construction zone.

Contractor
The contractor for this streetscape project is A. Lamp Concrete Contractors, Inc. located at 1900 Wright Blvd., Schaumburg, IL 60193.

City Monitoring
The City has retained ESI Consultants, Ltd. to monitor the project. If you have any questions or concerns during construction, please contact the Resident Engineer, Dave Doffin at (630) 918-4113. Questions in general about the Emerson, Ridge and Green Bay Corridor project should be directed to Sat Nagar, P.E., Senior Project Manager at 3-1-1 or (847) 448-4311.
