City of Evanston
2017 Hinman Avenue Sewer Extension Project

April 27, 2017

Project Description
Over the next month the City will be contracting sewer improvements on Hinman Avenue between Kedzie Street and Main Street. This work includes installation of a sewer extension to the separate relief sewer that was installed on Kedzie Street in the early 2000’s as part of the City’s Long Range Sewer Improvement Program. The relief sewer will collect stormwater runoff from the street that is now conveyed by the original combined sewer system that also collects domestic wastewater from nearby properties. This will reduce the frequency and magnitude of combined sewer surcharging during large rain events. The sewer trench will initially be patched once the sewer work is complete. This section of Hinman will be fully resurfaced this summer as part of the City’s annual Motor Fuel Tax funded street resurfacing program under a separate contract.

Work is scheduled to begin on May 8 and is expected to last three weeks, weather permitting. Parking will be prohibited during daytime work hours (7:00 AM to 5:00 PM) during this time. Temporary construction zone no parking signs will be posted a minimum of 48 hours prior to the start of work. Street sweeping parking restrictions will be waived for a one block radius around the construction zone when temporary daytime no parking is in effect. This area includes the 700 and 900 blocks of Hinman Avenue, the 800 block of Judson Avenue, Kedzie Street between Chicago Avenue to Judson Avenue, and Main Street between Chicago Avenue and Judson Avenue. Every effort will be made to complete the work in a timely manner to minimize any inconveniences caused by the construction.

Contractor
The general contractor for this project is Joel Kennedy Constructing Corporation, 2830 N. Lincoln Avenue, Chicago, Illinois 60657.

City Monitoring
This project is monitored by the City’s Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer Angeleo Alonzo at (224) 723-7487. Questions about the project in general should be directed to Dan Manis, P.E., Senior Project Manager at (847) 448-8129 or dmanis@cityofevanston.org.
