City of Evanston
2016 MFT Street Resurfacing Project
June 16, 2016

Project Description
Over the next six to seven weeks, the City of Evanston will be contracting street resurfacing work on four street segments throughout the City. This project involves concrete curb and sidewalk ramp replacement as needed, road base repairs, milling of the existing asphalt surface and repaving with two layers of new asphalt pavement. Funding for this project is from the City’s allotment of the State’s Motor Fuel Tax (MFT). The map on the back of this newsletter illustrates the following locations which have been included as part of this project:

- Brown Avenue (Cleveland Street to Washington Street)
- Crain Street (Florence Avenue to Asbury Avenue)
- Chicago Avenue (Dempster Street to Grove Street)
- Ewing Avenue (Colfax Street to Harrison Street)

Preparatory construction work is scheduled to begin the week of June 27 with placement of construction ahead signs and completion of tree protection measures which include tree crown and tree root pruning as needed and installation of orange tree fencing. Concrete repairs will begin the week of July 5. Temporary construction zone daytime no parking signs will be posted 48 hours prior to the start of work on your street. Evening (5:00 PM to 7:00 AM) and weekend street parking will be available throughout the duration of the project. Street sweeping parking restrictions will be waived for a one block radius when temporary daytime no parking is in effect. Lawn sprinkler systems located in the parkway or adjacent to the public sidewalk should be identified and marked by the property owner prior to the start of construction to prevent damage to the system. Every effort will be made to minimize any inconveniences during construction.

Contractor
The general contractor for this project is J.A. Johnson Paving Company, 1025 E. Addison Court, Arlington Heights, IL 60005.

City Monitoring
This project is monitored by the City’s Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact the Resident Engineer Pankaj Chokshi at (224) 723-8237. Questions about the project in general should be directed to Dan Manis, P.E., Senior Project Manager at (847) 448-8129.
