Recycling Center

Location: 2222 Oakton  Year Built: 1990  Rehabbed: N/A  Overall rating: Fair

Current condition: Per observation, the coping and flashing appeared to be in good condition. However, vegetation was present and this needs to be removed, to prevent further growth and existence of unwanted material.

Recommended Strategy: Maintenance

Key: Area where vegetation was located.

Core results:
EPDM ballasted
2” Polyisocyanurate
Metal deck
