Mental Health Board Advocacy Questions and Recommendations

Over the past several months, the Mental Health Board (MHB) has gathered a number of questions about which we seek clarification. The questions fall into two categories:
1. Communication channels and 2. Advocacy opportunities

1. Communication Channels: The Board would like clarification about the ways in which we can communicate with staff and elected officials in the City of Evanston. Our specific questions include:
   a. What options are there for the MHB to communicate directly with the Mayor: can we draft a letter, write a memo, send an email?
   b. Who approves the monthly Meeting Agendas?
   c. What does it mean when something "is sent to Legal for approval" - what does that process look like?

2. Advocacy opportunities:
The purpose of the Mental Health Board is to “protect and promote the mental health and welfare of all City of Evanston residents”. The powers and duties of the Mental Health Board are as follows:
   1. Establish annual funding priorities to services and projects that address the needs of at-risk City residents;
   2. Review and evaluate applications requesting funding from the City and submit to the Mayor and City Council yearly funding recommendations for public and social services;
   3. Monitor past and present use of funds by agencies in receipt of City awards; and
   4. Perform such other acts as may be necessary or proper to carry out the purposes of this Chapter.

The members of the Board propose that in addition to the above, The Board be able to advocate on behalf of agencies and their clients/participants and the greater City of Evanston's community mental health needs.

Advocacy opportunity questions:
   1. What advocacy powers can the Board assume: can we write letters to the paper/State Representatives?
   2. Can we as a Board be signatories or parties to an official statement or endorsement?
   3. Are we permitted to speak during public comment at City meetings and identify ourselves as MHB members?
The MHB has specific ideas about our advocacy possibilities within our community which include the following:

- Educate the Evanston community and elected officials about the unmet mental health needs of Evanston residents, particularly children and adolescents, and the need for improved access to mental health services for lower income Evanston residents.
  - examples-
    - create an awareness campaign,
    - make recommendations to the Illinois legislature, particularly Robin Gabel,
    - interface with District 65 and District 202 -D65 social workers recently came and presented to the MHB on the challenges they face - we would like to support their needs and advocate for mental health education in schools (and/or increased services)

- Encourage the Evanston community to prioritize and invest in developing more comprehensive mental health services
ZoomGrants Scoring Questions

4. Application identifies an unmet need that is addressed by the program (for renewal requests, discontinuation of funding would create an unmet need).

5. Organization has a track record of delivering programs/services in collaboration with other agencies that does not duplicate, in order to provide service to the target population.

6. Program structure is described clearly (location, participants, activities, schedule, staffing, etc.) and designed to address the need identified.

13. Program budget is complete, costs are reasonable and adequate based on program description.

14. Other sources of funding are identified, secured or there is reasonable likelihood they will be secured; program will be implemented if funded at less than the full request

15. Cost of program and amount of CDBG or MHB funds requested are justified based on the number of eligible Evanston residents served and overall impact; City investment will provide significant and long-term impact.

14. Program’s mission, goals, and work reflect the current priorities of the Board.
