Data Contest

Sure, you know Northwestern is in Evanston, but how much do you really know about the city? Who lives here? What do they care about? How does the city work?

Get to know Evanston by diving into open data about the city and sharing what you find with others. Put your data analysis, visualization, and communication skills to good use by working with real data about your community. Create a project to share with others, and have a chance to win a \$500 gift card!

Staff from the [City of Evanston Open Data](#) group will be involved in the judging and looking for opportunities to collaborate with participants!

Overview

Using open, publicly available data about Evanston, such as [Open Data from the City of Evanston](#), or US Census data on the city, create a poster that tells a data-driven story or provides insight about the city.

All Northwestern University students, both undergraduate and graduate, enrolled as of February 11, 2019 are eligible to participate.
