Loveland Park Tennis Court Resurfacing Project

April 18, 2019

Project Description

Over the next two months, the Loveland Park tennis courts will be resurfaced. This work involves milling and repaving of the courts followed by a new color coating surface. Other work includes fence repairs and landscaping restoration. During construction these courts will be closed and not available for use.

Tentative Schedule

The project is anticipated to begin next week and will be completed by the beginning of June. After the milling and asphalt resurfacing takes place, the courts must cure before the color coating system is applied. During these two to three weeks there will be minimal activity on-site, however, the courts must remain closed. After the color coating is complete, fence and landscaping restoration will take place.

Contractor

The general contractor for this project is Chicagoland Paving Contractors Inc., 225 Telser Road, Lake Zurich, IL 60047.

City Monitoring

This project will be monitored by the City's Capital Planning & Engineering Bureau. If you have any questions or concerns during construction, please do not hesitate to contact Chris Venatta, Senior Project Manager at (847) 448-8129 or cvenatta@cityofevanston.org.
