## Harbert Park Renovations

March 5, 2020

### Project Description

Over the next five months the City of Evanston will be contracting renovations at Harbert Park (located east of the North Shore Channel, between Main Street and Dempster Street). The project will include new playground equipment, a new basketball court, upgraded LED lighting, new site furnishings, a new picnic gazebo, and bike path/drainage improvements in select areas.

### Project Schedule

This project is anticipated to begin in **March 2020** and be complete in **July 2020**. During construction, the playground and adjacent picnic area will be closed to the public. All other areas of the park will remain open, with the exception of areas where construction work is actively occurring (such as the basketball court or portions of the path system). Construction activities may create some inconveniences for abutting residents but we will attempt to minimize these issues. Limited parking restrictions on adjacent roadways may be required during portions of this project to accommodate utility work but these are expected to be short duration activities and will be signed with temporary "NO PARKING" signs posted 48 hours in advance.

### Contractor

The general contractor for this project is Hacienda Landscaping, 17840 Grove Road, Minooka, Illinois 60447.

### City Monitoring

The City's Capital Planning & Engineering Bureau will be responsible for monitoring this project. If you have any questions or concerns during construction, please contact Stefanie Levine, Senior Project Manager, at **3-1-1** or **847-448-4311**.
