**REQUIRED BOATING SAFETY POLICIES**

- Stay home if you are sick or a vulnerable individual (older adults and those with severe underlying medical conditions).

- Only 2 persons allowed on any vessel at one time.

- Be prepared to launch your boat with your crew only. Do not rely on or ask assistance of others.

- Stay in your vehicle until it’s time to launch your boat. Do not crowd the ramp.

- Have everything onboard your boat when you launch to avoid repeated trips to and from your vehicle.

- While on the dock, launch ramp, piers and parking lot, please maintain social distance of at least 6 feet from everyone not from your immediate household. No congregating.

- Must wear face covering while in the parking lot and on the boat ramp, floating dock and piers.

- Do not linger at the boat ramp. Launch your boat, tie up to the south pier, park your vehicle and leave the ramp area. Follow this process even if no one else is waiting to launch in case someone is returning to the boat ramp.

- Avoid the common courtesy of helping others with lines.

- Season launch pass holders must affix their permit to their vessel and must place their hang tag in their vehicle while parked in the lot.

- Maintain 50 feet of separation from other vessels on the water.
